**ISO 13485 Certified Company**

**TUMMY PULSE**

## TUMMY PULSE

Tummy Pulse is a 20 minutes auto-programmed electrical impulse therapy. It is based on the combination of 7 different Electrical Muscle Stimulation programs with up to 20 level of intensity which proves to be ideal for muscle rehabilitation in your tummy.

# How Does It Work

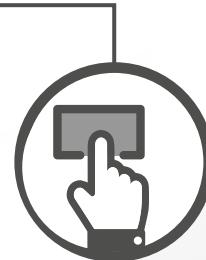

Equipped with EXO pulse technology, this belt when wrapped around the tummy releases mild, electrical impulses as stimulation to pass through your skin to the muscles. This results in the contraction and expansion of the tummy muscles, breaks the fat cells and improves the blood flow. Consequently, this helps your muscles get proper oxygen and nutrients, there by making them healthy and strong.

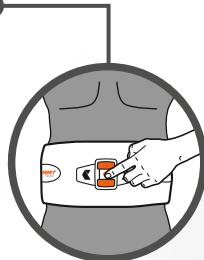

# TUMMY PULSE

Anytime, Anywhere Access
